

COVID-19 Update

November 18, 2020

We know and believe that the best place for our students is in school, therefore with faith in our health and safety protocols established at the beginning of the school year and the support of our amazing community, St. Joseph Catholic STEM School is committed to do everything we can to continue in-person learning.

Things We Do Well

- Keeping children home when they exhibit symptoms
- Following health and safety protocols
- Praying for staff and students when they are ill

Thank You!

Things to Keep in Mind

- Supporting and encouraging our students when they are at home, distance learning
- Wearing face masks at all times to mitigate the spread of COVID-19 within our building

Together We Can Keep Our School Open!

Holiday Quarantine Expectations

Over the holiday season we all have to face the great temptation to celebrate as might normally do. If this is your choice, we respectfully expect:

Keep your child home for a minimum of a 14 day period after the latest date your family participated in these events to mitigate the spread of COVID-19.*

*Distance Learning will be available for families who need it.

Our commitment to stay open is honoring not only what we believe is best for your child, but also for your family. We ask for your continued support and an increased vigilance to follow protocols and quarantine expectations.

We want your children here so we must stay healthy to stay open!

To request Distance Learning after the holidays, please fill out the form on the "COVID Preparedness" page on our website.
